- Clinical and QI mentors

Eliminate hepatitis C in your practice

Sign up to this Intensive Quality Improvement (IQI) Project

Eliminate hepatitis C in General Practice is a 6 month intensive, facilitated 'whole of practice' activity. It is designed to help practices improve their capacity to identify, screen, treat and manage patients with hepatitis C and to deliver best practice care.

Your general practice can make the difference.

Hepatitis C is curable and can be effectively treated in primary care.
10 general practices can be part of this project.

**Applications close at 5:00pm AEDT on Friday,
14 February 2020.**
