

HELPING CHILDREN WITH THEIR MENTAL HEALTH

THE UNIVERSITY OF
MELBOURNE

- Are you a parent/carer who has experience caring for a child aged 5-12 years with a mental health problem while in primary or elementary school?
- Are you an advocate for better mental health?
- We need you to help us develop new guidelines on how to provide mental health first aid to children

For more information please visit our survey website by scanning the QR code or following the link below
