

Strengthening Care for Children (SC4C) CPD Activities

The Strengthening Care for Children (SC4C) project involves the following activities that SC4C participating GPs can claim continuing professional development (CPD) points:

1. **GP-paediatrician co-consulting sessions, includes email and phone support.**
2. **Monthly 60-minute in-practice case-discussions (RACGP activity ID 230255)**

1. Monthly (60-min) Case-Discussions – NWMPHN will upload your attendance for allocation of CPD.

2 X CPD Accredited Activity Points (24 total) RACGP Activity ID 250255

Paediatrician-led case discussions will be held monthly (12:30-1:30pm) at the GP practice on a selected SC4C co-consult day. SC4C participating GPs are required to attend each monthly case-discussion. All GPs and practice staff are welcome.

The SC4C Paediatrician will record your attendance at each session and provide you a link to complete an evaluation survey online. This is required for claiming your CPD.

Within four weeks of a session, NWMPHN will upload SC4C participating GP's attendance for allocation of CPD points, after which the points will appear on your CPD statement.

2. GP-Paediatrician Co-consultations - Self-reported CPD

40 X CPD Accredited Activity Points - Supervised Clinical Attachment (SCA)

A Supervised Clinical Attachment (SCA) is an education activity aimed to update GPs' specific areas of knowledge and skills by working alongside a health professional or supervisor in a chosen area.

- Minimum education time requirement is 10 hours contact with the SC4C paediatrician.
- Contact hours can be face-to-face or in combination, such as video- conferencing, case study discussion, phone, or email.
- Record the name and qualifications of supervisors and session summaries using de-identified patient data.

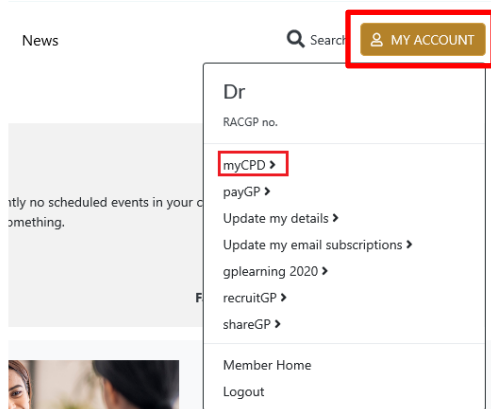

You can use the provided **RACGP SCA Activity Template** to record notes made during your SCA and upload this template to your SCA application [online](#).

SCA will be recorded as a Self-directed CPD Accredited Activity - [see Appendix 1 for instructions on Submitting self-directed Activities via RACGP myCPD.](#)

Additional information can be sourced from [RACGP](#) following login.

Appendix 1: Submitting self-directed Activities via RACGP myCPD.

1. Login to your RACGP dashboard at <https://www.racgp.org.au/login>
Username & Password: (if unknown or forgotten, please call 1800 472 247 to reset your login details)
2. Click on 'My Account' in the top right-hand corner of the page & select 'myCPD' from the dropdown menu.

3. Access GP 2020-22 CPD Dashboard and click on 'Log your CPD'. Under 'Submit a self-directed CPD Accredited Activity (formerly Category 1)' heading, select Supervised clinical attachment and complete the relevant form.

Quick log

The quick log is used to record a broad range of activities that reflect your everyday clinical practice and routine CPD.

- [Log your CPD](#)
- [Log your BLS](#)

Submit a self-directed CPD Accredited Activity (formerly Category 1)

Please do not proceed with submitting this education as a self-directed activity if it is already accredited with the RACGP for CPD points. The points will be allocated by the Provider on your behalf within 4 weeks of completion.

You can self identify activities that are not accredited by the CPD Program. This provides you with increased flexibility and choice, and acknowledges the value of a diverse range of educational activities, on an individual basis. Refer to the forms below if you would like to submit a CPD Accredited Activity. Each activity is worth 40 CPD Accredited Activity points.
