

# Monthly Case Discussions with SC4C paediatrician

Increase your confidence, skills & knowledge in paediatric care.

- Discuss your paediatric cases
- Present a case or topic on child health
- Get immediate specialist advice about assessment & management.

## Learning Outcomes:

- Discuss **paediatric population health issues**.
- Propose, discuss & evaluate **strategies improving quality of paediatric care**, including assessment & diagnosis for case-discussions & broader.
- Identify **effective referral pathways and utilizing HealthPathways** relevant to case/topic discussions.
- Develop **patient-centred management** with

Monthly <insert dates>

12:30-1:30pm

**Bring your case &  
topics to the next  
session!**

Please complete the evaluation survey post each session.

Each monthly case discussion has been approved for 2 CPD points under the RACGP CPD Program 2020-2022 triennium (Activity ID 230255).
