

“Planting the seeds for healthy bodies and minds in the future”

- DiSS GP

# Can your practice provide care to the next generation?

Young people are among the most affected by the impacts of the COVID-19 pandemic and need accessible, sensitive health care.

This is a unique opportunity to build trust with the next generation, to grow and diversify your practice and your interest in youth mental health and wellbeing.

## Practices participating in the Doctors in Secondary Schools program:

- are funded for a GP and nurse to deliver primary care services
- gain professional development in youth mental health and wellbeing
- grow and diversify their practice
- enjoy generous travel reimbursement.

## Doctors in Secondary Schools program

### CURRENT VACANCIES:

[Melton Secondary College](#)

[Bacchus Marsh Secondary College](#)
