

# Too many patients with respiratory symptoms?

## GPRCs are ready for your patients

New GP Respiratory Clinics (GPRCs) provide face-to-face assessment and testing, and immediate support for issues such as:

- Asthma
- COPD
- Pneumonia
- Influenza
- Shortness of breath
- COVID - including COVID positive patients (book ahead).

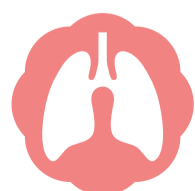

Services are available for anyone with respiratory symptoms, including children, with or without a Medicare card, at no cost.

Clinics are open seven days a week and after hours, in many locations across greater Melbourne.

**For locations, more information, or to book an appointment, visit [nwmpn.org.au/gprcs](http://nwmpn.org.au/gprcs)**
