

Modern, family-owned completely private billing general practice in Melbourne's CBD is looking for a general practitioner without restrictions to join our team of 6 doctors.

In addition to our core general practice, we offer a wide range of services: skin checks, molemap, iron infusions, women's health, shared maternity care, medical terminations of pregnancy, children and men's health, sexual health, vaccination of children and adults, Q-fever, travel vaccinations and Covid-19 PCR tests.

Our three practice nurses support the doctors and facilitate procedures in a modern treatment room equipped with excellent light. We also have onsite pathology and a psychologist. Monash IVF consults once per fortnight.

The practice is open from 8.00 to 18.00 and is closed on weekends and public holidays.

We encourage everyone to do what they do best and would be delighted to have a doctor who can bring new skills to the practice.

The practice will offer the suitable candidate a retainer for the first three months while the new doctor builds their patient base.

The practice is fully private billing and covers the wider CBD area: office workers, city residents, students and travellers. You would bill approximately \$300 per hour after the initial period with fees of 35% paid to the practice as a service fee. With the city returning to normal there is an increasing demand for more doctors.

This may be a great opportunity for a doctor wanting to relocate or someone at the end of their RACGP training.

For more information please send an email to manager@cbddocs.com.au or to our principal doctor Dr Jelena Radosavljevic at jelena@cbddocs.com.au

Alternatively please call 03 9077 9912 and leave your contact details.
