

North Western Melbourne Primary Health Network will use its online procurement system Tenderlink to accept applications for its *Early interventions for healthy ageing project*.

Tenderlink has several benefits:

- Once registered for your free account, your practice will be notified immediately when applications open.
- Each practice can add and manage multiple users for free.
- Practices can log in anytime to check updated grant documentation such as frequently asked questions.
- NWMPHN can check which practices have registered and contact those who haven't, ensuring every eligible practice can apply.
- Once registered, your practice will receive notifications about future relevant grant and tender opportunities.
- The Tenderlink support desk can assist with any technical issues (see details below).
