

Find the most appropriate level of mental health support with IAR-DST

The Initial Assessment and Referral Decision Support Tool is being integrated into primary care across Australia.

Used by Head to Health clinicians since 2019, this tool is now available for all practices in the region.

Join us for a 2-hour training session, online or in person, to find out why this easy to use tool assists GPs to assess a patients mental health needs with the right level of care, when they need it.

- 2 RACGP Education Activity CPD hours
- Location options: online, at NWMPHN's Parkville offices, or in practice (min. 3 participants)
- \$300 GP incentive payment
