

Seeking volunteers to help improve the design of pathology reports

We are seeking health care professionals working in Australia to attend a 90-minute online focus group to discuss how to improve the delivery pathway of pathology results to consumers.

We also offer the option to participate in an individual interview of 30-45 minutes.

Participants will receive a \$100 pre-paid Mastercard to thank them for their time.

If you want to volunteer, or to find out more about this project, please email Dr Sanne Peters from University of Melbourne at sanne.peters@unimelb.edu.au

This research project is a collaboration between St Vincent's Hospital Melbourne, the Aikenhead Centre for Medical Discovery, University of Melbourne and Swinburne University of Technology.
